## Field Office Technical Guide Notice ND-8

This notice transmits Technical References for Section I of the Field Office Technical Guide (FOTG), located on the North Dakota NRCS homepage, <http://www.nd.nrcs.usda.gov/resources/index.htm>.

The list of references includes publications and Internet sites that may provide useful information for conservation planning on urban and developing land. The North Dakota list was developed from a working tool compiled by Gary Finstad, NRCS Community Planner at Lakewood, CO. While some useful technology can be gleaned from the listed references, they may also contain information or techniques that are not consistent with NRCS policy. The references are regarded only as potential sources of new technology. Before it is utilized in conservation planning, information and/or techniques from non-NRCS sources must be approved by the appropriate discipline specialists on a case-by-case basis.

Should Internet addresses change in the future, please report them to Mark A. Anderson, Resource Conservationist at (701)-530-2039 or email at [mark.anderson@nd.usda.gov](mailto:mark.anderson@nd.usda.gov).
